Turn Compliance Challenges Into Victories With Expert Regulatory Support

- 

Elevate Alignment and Oversight
Tegria’s team has deep, up-to-date knowledge of regulation requirements and serves as a central point for compliance by monitoring and reporting on business operation and departments.
- 

Enhance Quality Assurance
We provide comprehensive compliance monitoring with a continuous watch on objectives and quality data, along with ongoing alerts of any changes proposed by CMS or required in MEDITECH.
- 

Reduce Burden and Frustration
We support compliance staff with registrations, hardships, and exclusions, when necessary, while overseeing application status and communication with compliance regulators.
- 

Streamline Attestation Processes
Our team simplifies attestation by developing yearly checklists, generating the latest SQL reports, preparing workbooks, and offering recommendations for securing data year by year.
- 

Healthcare Data and Technical Expertise
Our experts perform data capture modifications, value set mapping, workflow modification assistance, DR configuration/table updates, testing support, and data submission support.
- 

Improve Audit Preparation and Results
We take the stress out of audit preparation, and free time for other initiatives, with comprehensive support for internal and external audits, along with report recommendations for audit trails.

Supporting Long-Term Success

Tegria has a strong relationship with MEDITECH, and they are also very good at working with our other consulting partners. That **gives me peace of mind and allows me to focus on the projects. We’re really a team.**”

John Wilcox, CIO, Morris Hospital and Healthcare Centers

The impact of working with Tegria was huge. Meeting our regulatory submission deadlines truly depended on their ability to jump in, provide support, and deliver exactly what we needed. Without them, I’m not sure we could have done it.”

Stephanie Mercer, Chief Nursing Officer, Appling Healthcare

Tegria has been a **reliable partner**, helping us modernize legacy systems and continuously improve our environment. **Their coordination and ongoing support make a real difference.**”

Robert Candelaria, Director of Information Systems, Gila Regional Medical Center
